

BETWEEN ILLUSTRATION AND RESEARCH IN NUMBER THEORY

ABSTRACT

I'll tell a few mathematical stories from my personal experience with mathematical illustration as a research tool in number theory, sharing some of my experience with the process, not just results. Topics include Apollonian circle packings, Mobius transformations, continued fractions, and algebraic integers.

FRIDAY, FEBRUARY 9

US PACIFIC.....9AM
US EASTERN.....12PM
CENTRAL EUROPE.....6PM

Featuring "Show and Ask" Presenters

Scott Vorthmann

vZome

Alice Zhang

Cornell University

KATHERINE E. STANGE

University of Colorado, Boulder

The talk will be on
