BETWEEN ILLUSTRATION AND RESEARCH IN NUMBER THEORY: PART II

ABSTRACT

I'll tell a few mathematical stories from my personal experience with mathematical illustration as a research tool in number theory, sharing some of my experience with the process, not just results. Topics include Apollonian circle packings, Mobius transformations, continued fractions, and algebraic integers.
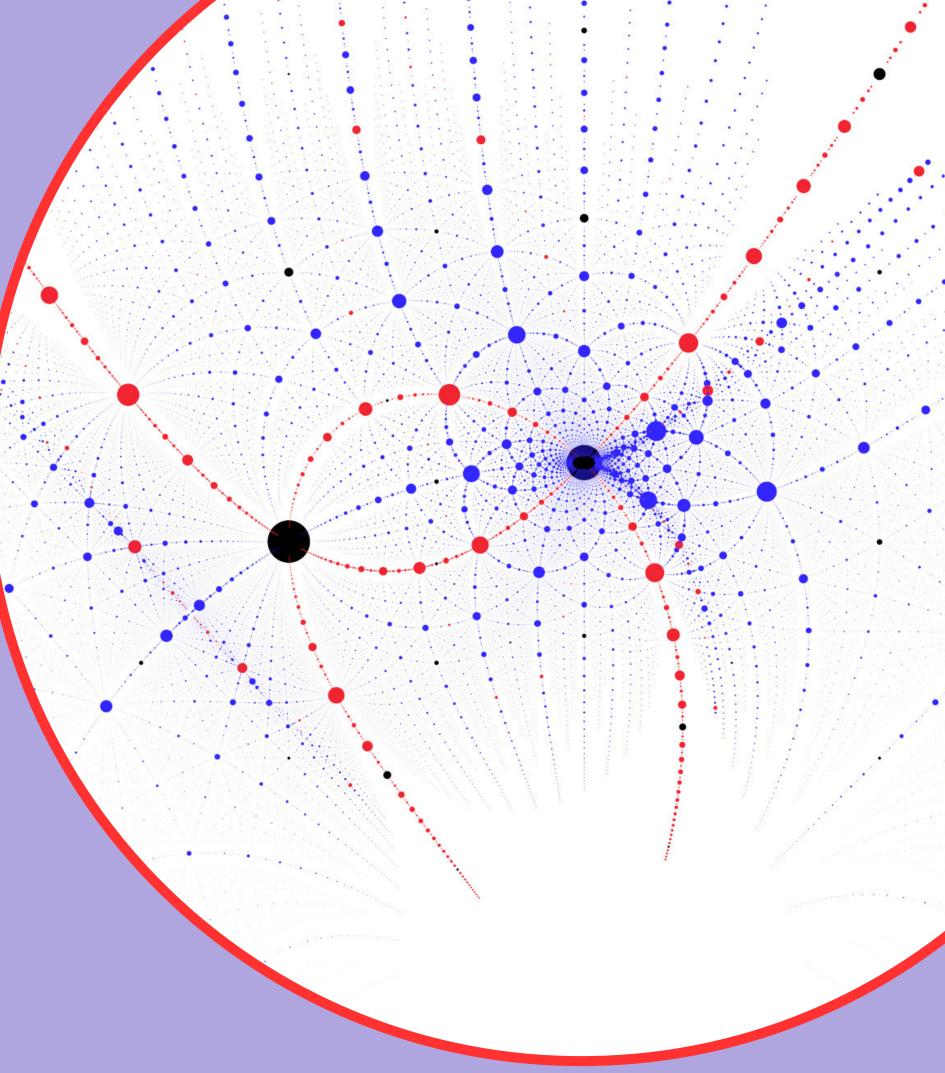

FRIDAY, MARCH 8

US PACIFIC.................9AM
US EASTERN................12PM
CENTRAL EUROPE.......6PM

**Featuring "Show and Ask" Presenter**

Rebecca Field
James Madison University

KATHERINE E. STANGE
University of Colorado, Boulder

The talk will be on Zoom. Scan this QR code to join!
